PROFILE

Results-oriented Front-End Developer with 4 years of experience in designing, developing, and maintaining high-quality web applications. Proven ability to solve complex problems, adapt quickly to new challenges, and collaborate effectively within agile teams. Proficient in various front-end and back-end technologies, committed to delivering exceptional user experiences and exceeding client expectations.

EDUCATION

Universidad Nacional de Colombia

Universidad Nacional de Colombia | Medellín, Colombia Bachelor of Science in Systems and Information Engineering | 2018 – Present (Expected Graduation: March of 2025)

EXPERIENCE

Full-Stack Developer

Holcim ABS | Medellín Colombia | July 2024 – January 2025

- Developed full-stack web applications using React.js and Google Appscripts for build automation. These applications automated internal processes, integrating seamlessly with RPA tools to streamline workflows within SAP. The projects required clear and concise communication in English (B2+).
- Collaborated with business analysts and agile teams to define and implement solutions meeting internal client needs.

Front end developer

Atmosfera Agencia Digital | Medellín, Colombia | March 2021 – July 2024

- Developed and maintained user-friendly web applications using React.js, improving user experience and meeting client specifications.
- Implemented responsive design principles to ensure optimal functionality across multiple devices and browsers.
- Integrated content from various sources into web applications, ensuring seamless user experience

Web Developer

Simbolo Interactivo Ltda. | Medellín, Colombia | September 2021 – May 2022

- Provided comprehensive web support for marketing initiatives.
- Resolved technical issues and optimized website performance.
- Utilized HTML, CSS, JavaScript, and WordPress to build and maintain websites.
